### **Light Beacons January Topic Soul Mission and Life Purpose**

In this month's lesson you will learn about your life purpose and how that concept is misunderstood and misused. Instead, we have to look at the 'purpose of your life' and how it is designed to fulfill your soul mission.

Your soul mission is the reason you return to the earth lifetime after lifetime, to clear the energetic imprints you leave here which is also the fulfillment of your karma.

The purpose of your life, or the physical 3D presence you create in this lifetime, sets the stage for that soul purpose to be fulfilled. It is why you can choose such a difficult life path, you are seeing the mirror of your own karmic energy.

To understand your soul mission and its healing requirements you can look at the people in your life and your karma with them:

Who is/are the challenging people in your life?

What do they do or say that makes them such a challenge? How do they interact with you that is difficult?

What is the dominant energy you see in them, i.e. anger, hatred, fear, jealousy, etc?

What is the lesson they are presenting to you (what do you need to learn from them)?

What kind of healing do you think they need or do you want to give them (hint: that is the answer to the healing you want for yourself)?

What can you do to learn that lesson and shift the karmic energy (hint: it's the opposite of their energy)?

## Light Beacons Portal Monthly Lesson

What kind of life do you want to live instead?

What would you do if you had more positive, fulfilling, expansive, joyful energy in your life?

The answer to the last question above is the shift you can make in your soul mission, to create a healed, whole, and congruent soul mission so you can create a new purpose for your life, one that is more fun, joyful, and fulfilling for you.

I hope you enjoy this month's lesson!

Many blessings
