Light Beacons July 2018 Topic Change and Choice

Change is the path of creating something that is different from what we know and have at this moment.

Choice represents the options we have available to us, those we are aware of and those we are not aware of, to allow and enable to change to happen.

What do you want to change in your life?

Why do you want this change to happen?

What does your life look like after the change? Think in terms of what you will have more/less of, how your life will be better, etc.

What choices must you make to allow this change to happen? Do you think you have any choices?

What choices are you aware of?

What choices are you not aware of?

Light Beacons Portal
Monthly Lesson

What is an easy choice for you?

What is a more difficult choice for you?

How does your choice impact the people in your life? Does this matter to you AND does it affect your choices?

What is a 3D choice?

What is a 5D choice?

Finally, how much are you willing to allow your life to expand to embrace the change and how much will you limit?

I hope you enjoyed this lesson and look forward to our upcoming Q&A discussion, the link is available on the LIVE Q&A page at lightbeaconsportal.com

Many blessings
